

NOTICE OF PRODUCT AND SERVICE WITHDRAWAL

Product/Service: Dispatch and IntoPlane Mobile and Associated Products

Manufacturer: Varec, Inc.

Overview: All FuelsManager® Dispatch and IntoPlane services at the wingtip, along with associated products, have been discontinued from Varec's suite of Aviation Solutions. This change is due to technology obsolescence and infrastructure limitations of the current offerings. Market and technology changes have lead Varec to pursue alternative solutions for fuel data collection that is more in line with market drivers including costs and customer needs.

Repairs and Support: Please contact Varec for evaluation to determine what support or repair is available for into-plane handhelds, mobile computers or data capture units.

Successors: The successors for these fuel data collection services are IntoPlane Kiosk and IntoPlane Web. Please contact Varec for more information related to these services.

Impact of this Closeout

The following devices are impacted:

- 8230/8232 Data Capture Units
- 9640 (99ex) IntoPlane Handheld Computer
- Mobile Computers used for Dispatch

Effective 01-Dec-2019

- No new quotes will be accepted for the associated services or software services, including spare parts.
- Active quotes will be honored through the quote expiration date.
- All existing warranties will be honored through the end of the specified warranty period.
- Limited support will be available through December 1, 2020.

NEW SERVICES

IntoPlane Kiosk

Simplifies and improves the fuel data collection process and improves inventory accounting reporting times with backroom data entry that includes built-in validations.

IntoPlane Web

The processing of high volume paper fuel tickets is streamlined utilizing automated, validated and web-based rapid data entry. Allows for fuel data collection from the smallest to the largest fuel operation.
